#### **INDEPENDENT AUDITOR'S REPORT**

Board of Commissioners Pike County, Georgia Zebulon, Georgia

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Pike County, Georgia as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Pike County Department of Public Health, which represents 2 percent, 0 percent, and 30 percent, respectively, of the assets, net positions, and revenues of the component units of Pike County, Georgia. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Pike County Department of Public Health, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Pike County, Georgia, as of June 30, 2018, and the respective changes in financial position and the respective budgetary comparison for the General Fund and the Major Special Revenue Fund, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Pike County, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements, budgetary comparison schedules, the Pike County Agribusiness Authority statements, and the schedule of projects constructed with special sales tax proceeds are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, budgetary comparison schedules, the Pike County Agribusiness Authority statements, and the schedule of projects constructed with special sales tax proceeds are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the combining and individual nonmajor fund financial statements, budgetary comparison schedules, the Pike County Agribusiness Authority statements, and the schedule of projects constructed with special sales tax proceeds are fairly stated in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 28, 2019, on our consideration of Pike County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Pike County, Georgia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Pike County, Georgia's internal control over financial reporting and compliance.

## RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION JUNE 30, 2018

Total Fund Balance per Balance Sheet of Governmental Funds	

\$ 4,973,583

Amounts reported for governmental activities in the Statement of Net Position differ from amounts reported in the Balance Sheet of Governmental Funds due to the following:

#### Capital Assets

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Cost of the assets 17,292,061 Accumulated depreciation (8,168,909)

#### Revenues

Other long-term assets are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds.

122,369

#### Long-term Liabilities

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities both current and long-term are reported in the Statement of Net Position. Long-term liabilities at year-end consist of the following:

(62,794)
(4,010,000)
(129,150)
(207,083)
(19,916)

Total Net Position of Governmental Activities \$ 8,739,619

#### RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2018

Excess (Deficit) of Revenues and Other Financing Sources Over (Under) Expenditures and Other Uses Per Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances	\$ 108,006
Amounts reported for governmental activities in the Statement of Activities differ from amounts reported in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances due to the following:  Capital Assets	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is depreciated over their estimated useful lives and reported as depreciation expense.	
Total capital outlays	1,665,054
Total depreciation	(732,013)
The net effect of various miscellaneous transactions involving capital assets (i.e. sales, disposals, trade-ins, and donations) is to increase net position.	(530,932)
Long-term Debt	
The issuance of bonds and similar long-term debt provides current financial resources to governmental funds and thus contributes to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term liabilities and does not affect the Statement of Activities. Similarly, repayment of principal is an expenditure in the governmental funds, but reduces the liability in the Statement of Net Position. The amounts of the items that make up these differences in the treatment of long-term debt and related items are as follows:	
Debt issued or incurred	(1,183,050)
Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. The adjustments for these items are as follows:	
Capital leases	837,022
Bond payable Note payable	630,000
Note payable	2,506

#### Revenues

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

#### **Accounting Policies**

Pike County was established under the provisions of an Act of the General Assembly of Georgia. The County operates under a county commissioner form of government, and provides the following services as authorized by state law, general administrative services, public safety, roads and bridges, tax assessment and collection, culture and recreation, courts and health and welfare.

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting.

#### A. Reporting Entity

In conformity with generally accepted accounting principles, as set forth in Statement of Governmental Accounting Standards Board (GASB) No. 61 "The Financial Reporting Entity: Omnibus, an amendment of GASB Statements No. 14 and 34," the County's relationships with other governments and agencies have been examined. The component unit columns in the combined financial statements include the financial data for the Pike County Department of Public Health, Pike County Library, Pike County Agribusiness Authority, Development Authority of Pike County, Pike County Water Authority, and the Pike County Recreation Authority, as of June 30, 2018. The financial information for the component units is reported in columns separate from the County's financial information to emphasize that it is legally separate from the County.

#### Pike County Department of Public Health (Health Department)

The Health Department is charged with determining the health needs and resources of its jurisdiction, developing programs, activities, and facilities responsive to those needs, and enforcing all laws related to health matters unless they fall under the jurisdiction of other agencies. The County appoints the voting majority of the board. The County provides significant operating subsidies to the department. The Health Department is presented as a governmental fund type. Complete financial statements of the Pike County Department of Public Health may be obtained from their administrative office at the following location:

The Pike County J. Joel Edwards Public Library is presented as a governmental fund type and only maintains a General Fund. Separate financial statements may be obtained from their administrative office at the following location:

Pike County J. Joel Edwards Public Library P.O. Box 574 Zebulon, Georgia 30295

#### Pike County Agribusiness Authority

The Pike County Agribusiness Authority is a nonprofit 501(c) 3 organization that promotes agriculture in Pike County. The County provides significant operating subsidies to the Authority. The Pike County Agribusiness Authority is presented as a governmental fund type and only maintains a General Fund. The Pike County Agribusiness Authority does not issue separate financial statements.

#### **Development Authority of Pike County**

The Development Authority of Pike County promotes new industry and existing industry in Pike County. The County provides significant operating subsidies to the Authority. The Development Authority of Pike County is presented as a governmental fund type. Separate financial statements may be obtained from their administrative office at the following location:

#### **Pike County Recreation Authority**

The Pike County Recreation Authority is responsible for developing and promoting recreational needs within the County. The County provides significant operating subsidies to the Authority. The Pike County Recreation Authority is presented as a governmental fund type. Separate financial statements may be obtained from their administrative office at the following location:

Pike County Recreation Authority P.O. Box 697 Zebulon, Georgia 30295

Under Georgia law, the County, in conjunction with other cities and counties in the five county RC membership, is a member of the Three Rivers Regional Commission (RC) and is required to pay annual dues thereto. Membership in an RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RC in Georgia. The RC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an RC. Separate financial statements may be obtained from:

Three Rivers Regional Commission P.O. Box 818 Griffin, Georgia 30224

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (Statement of Net Position and Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

#### **Government-Wide Financial Statements**

The government-wide financial statements are reported using the flow of economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided; 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

#### **Fund Financial Statements**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting.

Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

However, debt services expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the obligations are expected to be liquidated with expendable available financial resources.

Property taxes, local option sales taxes, other taxes, intergovernmental revenues, interest, and charges for services associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenues are considered to be measurable and available only when cash is received by the government.

## NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2018 (CONTINUED)

The fund financial statements provide more detailed information about the government's most significant funds, not the government as a whole. The activities of the government are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The government reports the following major governmental funds:

General Fund – The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

E911 Fund – The special revenue fund is used to account for the E911 fees collected and disbursements for the operations of the E911 call center.

Impact Fees Fund – The capital project fund is used to account for the proceeds of impact fees collected and the capital projects approved for those funds.

2016 SPLOST Fund – The capital project fund is used to account for the bond proceeds and various projects associated with the approved SPLOST.

Additionally, the government reports the following fund types:

Special Revenue Funds – Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

Capital Project Funds – The LMIG Fund is used to account for the proceeds and various projects associated with the Local Maintenance & Improvement Grant. The Jail Construction fund is used to account for capital improvements made on the jail. Capital improvements fund was established to identify and monitor major capital expenditures of the County's various departments.

Agency Funds – Agency Funds are used to account for assets held by the County in a trustee capacity or as an agent for individuals, private organizations, other governments, and other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

## NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2018 (CONTINUED)

#### D. <u>Deposits and Investments</u>

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Investments are reported at fair value, which is determined using selected bases. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates, and investments that do not have an established market are reported at estimated fair value. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

#### E. Receivables

Receivables and Due from Other Governments represent funds to be received from other local governments, state grant-in-aid, state contracts, or federal funds. No allowance is deemed necessary for these receivables.

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" or "advances to/from other funds." All other outstanding balances between funds are reported as "due to/from other funds."

All trade and property tax receivables, have been reduced to their estimated net realizable value, and are shown net of an allowance for doubtful accounts. Estimated uncollectible amounts are based upon historical experience rates.

#### F. Inventories

Inventories are valued at cost using the first-in / first-out (FIFO) method and consist of expendable supplies. The cost of such inventories is recorded as expenditures / expenses when consumed rather than when purchased.

#### G. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepaid items in both government-wide and fund financial statements.

#### H. Capital Assets

Capital assets, which include property, plant equipment and infrastructure assets (e.g. roads, bridges, sidewalks and similar items acquired subsequent to November 1, 2003) are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

## NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2018 (CONTINUED)

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Building	25-40 years
Equipment	5-20 years
Infrastructure	50 years
Furniture	5 years
Vehicles	5 years
Intangible assets	3-5 years

#### I. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide; proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### J. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

#### K. Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government only has one item that qualifies for reporting in

## NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2018 (CONTINUED)

this category, which arises only under a modified accrual basis of accounting. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues for property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### L. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### M. Fund Equity

In the financial statements, governmental funds report the following classifications of fund balance:

- Nonspendable amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- Restricted amounts are restricted when constraints have been placed on the use of resources by (a) externally imposed by creditors, grantors, contributors or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Commissioners. The Board of Commissioners approves committed resources through a resolution during a voting session of Board meetings.
- Assigned amounts that are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. By resolution, the Board of Commissioners has authorized the County Manager or designee to assign fund balances.
- Unassigned amounts that have not been assigned to other funds and that are not restricted, committed or assigned to specific purposes within the General Fund.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the County's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the County's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

The County does not have a formal minimum fund balance policy.

#### N. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; and errors or omissions. The County purchases commercial insurance for most types of risk. For these risks, settlements have not exceeded coverage's for each of the past three fiscal years. The County had no significant reduction in insurance coverage from coverage in the prior year.

## NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2018 (CONTINUED)

The County has joined together with other municipalities in the state as part of the ACCG Group Self Insurance Workers' Compensation Self Insurance Fund, a public entity risk pool currently operating as a common risk management and insurance program for member local governments.

The Fund is to defend, in the name of and on behalf of the members, any suits or other proceedings, which may at any time be instituted against them on account of injuries or death within the preview of the Workers' Compensation Law of Georgia, or on the basis of employer's liability. The Fund is to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense. For the fiscal year ending June 30, 2018, the County's total contribution was \$92,883 for the Workers Compensation Fund.

The County is a member of the ACCG Interlocal Risk Management Agency (ACCG-IRMA). This agency functions as a risk sharing arrangement among Georgia County governments and is administered by the Association of County Commissioners of Georgia (ACCG). The purpose of ACCG-IRMA is to establish and administer one or more group self-insurance funds; to establish and administer a risk management service; and to prevent or lessen the incidence or severity of casualty and property losses. Each member pays an annual contribution established by the Board of ACCG-IRMA. For the period July 1, 2017 – June 30, 2018, the County's total contribution was \$140,292. ACCG-IRMA may develop and issue such self-insurance coverage descriptions, as it deems necessary. The current coverage provides a \$1,000,000 general liability limit with a \$1,000 per occurrence deductible.

As part of these risk pools, the County is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pools' agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The County is also to allow the pools' agents and attorneys to represent the Government in investigation, settlement discussions and all levels of litigation arising out of any claim made against the Government within the scope of loss protection furnished by the funds.

#### NOTE 2 – BUDGETS AND BUDGETARY ACCOUNTING

#### **Budget Process**

The annual budget document is the financial plan for the operation of Pike County. The budget process exists for the purpose of providing a professional management approach to the establishment of priorities and the implementation of work programs while providing an orderly means for control and evaluation of the financial posture of the County.

# NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2018 (CONTINUED)

The County prepares a separately issued budget report. An annual operating budget is prepared for the General and Special Revenue funds. Prior to year end the County Manager submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing the following November 1. The operating budget includes proposed expenditures and the means of financing them. The Board of Commissioners holds a public hearing on the budget, giving notice thereof at least ten days in advance by publication in the official organ of Pike County.

The budget is then revised and adopted or amended by the Board of Commissioners at a regular meeting before the year to which it applies. The budget so adopted may be revised during the year only by formal action of the Board of Commissioners in a regular meeting and no increase shall be made therein without provision also being made for financing same. The legal level of control is at the department level.

Formal budgetary integration is employed as a management control device during the year. The budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). The General Fund is subject to budgetary control on a departmental basis, while the Special Revenue funds are subject to budgetary control on an individual fund basis. Budgets are prepared for the Capital Projects Funds on a project basis, which usually covers two or more fiscal years. Budgeted amounts are as originally adopted, or as amended by the Board of Commissioners. Individual amendments are not material in relation to the original appropriations.

#### **NOTE 3 – DEPOSITS**

#### Custodial Credit Risk - Deposits

The custodial credit risk of deposits is the risk that in the event of the failure of a bank, the government will not be able to recover deposits. The County's bank balances of deposits as of June 30, 2018 are entirely insured or collateralized with securities held by the County's agent in the County's name. State statutes require banks holding public funds to secure these funds by FDIC insurance, securities pledged at par value, and surety bonds at face value in combined aggregate totaling not less than 110 percent of the public funds held.

At June 30, 2018, the carrying amount of deposits for the Pike County Department of Public Health, a discretely presented component unit, was \$151,137. All of the bank balance was covered by federal depository insurance or by collateral held.

At June 30, 2018, the carrying amount of deposits for the Pike County Library, a discretely presented component unit, was \$90,339. All of the bank balance was covered by federal depository insurance or by collateral held.

At June 30, 2018, the carrying amount of deposits for the Pike County Water and Sewerage Authority, a discretely presented component unit, was \$466,791. All of the bank balance was covered by federal depository insurance or by collateral held.

# NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2018 (CONTINUED)

At June 30, 2018, the carrying amount of deposits for the Pike County Agribusiness Authority, a discretely presented component unit, was \$31,732. All of the bank balance was covered by federal depository insurance or by collateral held.

At June 30, 2018, the carrying amount of deposits for the Development Authority of Pike County, a discretely presented component unit, was \$21,528. All of the bank balance was covered by federal depository insurance or by collateral held.

At June 30, 2018, the carrying amount of deposits for the Pike County Recreation Authority, a discretely presented component unit, was \$185,267. All of the bank balance was covered by federal depository insurance or by collateral held.

#### **Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The County does not have a formal policy for managing interest rate risk.

#### **Credit Quality Risk**

Georgia law authorizes local governments to invest in the following types of obligations: obligations of the State of Georgia or any other states; obligations issues by the United States; obligations fully insured or guaranteed by the United States government or governmental agency; prime banker's acceptances; State of Georgia Local Government Investment Pool; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

#### **NOTE 4 – PROPERTY TAXES**

The Board of Commissioners levied property taxes on September 19, 2017. Property taxes attached as an enforceable lien on property as of January 1. Property taxes were billed on September 20, 2017 and were payable on December 20, 2017.

#### **NOTE 5 – RECEIVABLES**

Receivables at June 30, 2018, consist of the following:

General Fund	\$ 86,715				
SPLOST 2016 Fund	109,758				
Total	\$ 196,473				

The amounts due from state government are for sales tax.

### NOTE 7 – INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2018, is as follows:

Due to / from other funds:

Receivable Fund	Payable Fund	Amount			
General Fund	E911 Fund	\$	59,707		
General Fund	SPLOST 2016 Fund		7,379		
Nonmajor Governmental	SPLOST 2016 Fund		15,935		
Total		\$	83,021		

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

#### Interfund transfers:

	Transfer In:

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners Pike County, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Pike County, Georgia as of and for the year ended June 30, 2018 and the related notes to the financial statements, which collectively comprise Pike County, Georgia's basic financial statements, and have issued our report thereon dated March 28, 2019. Our report includes a reference to other auditors who audited the financial statements of the Pike County Department of Public Health, as described in our report on Pike County, Georgia's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Pike County, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Pike County, Georgia's internal control. Accordingly, we onot express an opinion on the effectiveness of Pike County, Georgia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2018-001 and 2018-002 that we consider to be material weaknesses.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Pike County, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Pike County, Georgia's Response to the Findings

Pike County, Georgia's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. Pike County, Georgia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## SCHEDULE OF FINDINGS AND RESPONSES FOR THE FISCAL YEAR ENDED JUNE 30, 2018

#### FINANCIAL STATEMENT FINDINGS

Findings noted on the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards:

# 2018-001 - Debt Transactions - Capital Leases and Notes Payable

#### **CRITERIA**

Generally accepted accounting principles require that governmental funds report, at the inception of a capital lease, both an other financing source and expenditure equal to the net present value of the minimum lease payments. Additionally, note proceeds are reported as other financing sources and equipment purchased with the proceeds as capital outlay expenditures.

#### **CONDITION**

In performing year-end audit procedures, we identified that the County did not record the capital lease proceeds and corresponding capital asset expenditures on four new capital leases for FY18. In addition, the County also did not record note proceeds and the corresponding capital asset expenditure for a new note payable issued in FY18.

#### **CONTEXT**

Material adjustments were required in the General Fund as follows:

- Adjustments of \$1,117,750 to record capital lease proceeds and \$108,500 to record sales proceeds for capital assets traded in at the inception of the lease and the related expenditure for purchase of capital assets.
- Adjustment of \$65,300 to record note proceeds and the related expenditure for purchase of capital assets.

#### **EFFECT**

The County understated other financing sources, sales proceeds and capital outlay expenditures for the year ended June 30, 2018.

#### **CAUSE**

The County did not have adequate internal control procedures in place to insure that debt proceeds and the corresponding capital outlay expenditures were properly recorded in the general ledger.

#### RECOMMENDATION

The Finance Department should establish procedures to insure the proper recording of debt transactions during the year. The County should also consider providing additional training to personnel.

## VIEWS OF RESPONSIBLE OFFICIALS AND PLANNED CORRECTIVE ACTIONS

The County agrees with the finding. The County's Finance Department will provide training to personnel and establish procedures to insure the proper recordings of transactions during the year.

## SCHEDULE OF FINDINGS AND RESPONSES FOR THE FISCAL YEAR ENDED JUNE 30, 2018

(CONTINUED)

### 2018-002 - Proceeds from Sale of Property

#### **CRITERIA**

Generally accepted accounting principles direct that proceeds from governmental fund sale of capital assets are reported as other financing sources.

#### **CONDITION**

During fiscal year 2018, the County held an auction for the sale of surplus equipment. The County failed to record proceeds from the sale and the corresponding payoff of principal on a capital lease.

#### **CONTEXT**

A material adjustment of \$728,368 was required in the General Fund to record sales proceeds for equipment that was auctioned. The proceeds from the auction were paid directly from the auction company to Caterpillar to payoff the principal on an existing capital lease.

#### **EFFECT**

The County understated other financing sources and debt service expenditures for the year ended June 30, 2018.

#### **CAUSE**

The County did not have adequate internal control procedures in place to insure that sales proceeds were properly recorded in the general ledger.

#### RECOMMENDATION

The Finance Department should establish procedures to insure the proper recording of sales transactions during the year. The County should also consider providing additional training to personnel.

#### VIEWS OF RESPONSIBLE OFFICIALS AND PLANNED CORRECTIVE ACTIONS

The County agrees with the finding. The County's Finance Department will provide training to personnel and establish procedures to insure the proper recordings of transactions during the year.
